**RENEWED SUBMISSION UNDER 37 CFR 1.497(d)**

This is a renewed submission under 37 CFR 1.497(d) prepared in response to the Decision mailed on 21 September 2006 in connection with the above matter.

Enclosed with this Renewed Submission are the following documents:

1. Statement by Added Inventor Under 37 CFR § 1.48(a)(2);
2. Written Consent by Assignee Under 37 CFR § 1.48(a)(5) with copies of supporting Notices of Recordation of Assignment documents;
3. Complete copies of executed Declarations which collectively bear all the required signatures; and
4. Declaration of Stephen T. Olson.

The Decision states that Applicants have not provided a statement by Brian Kelly that he was inadvertently excluded as a named inventor without deceptive intent on his part. The required Statement by Added Inventor is included herewith.

**PATENT**

The Decision states that the Written Consent By Assignee does not satisfy 37 CFR 3.73(b)(1) because it is not accompanied by documentary evidence of a chain of title (and a request to record it) or by a statement specifying the reel and frame number where such documentation may be found in the records of the USPTO. A Written Consent by Assignee specifying reel and frame numbers is included herewith.

With respect to the Declaration, the Decision states:

Inspection of the declaration documents filed on 21 July 2006 reveals that they appear to have been assembled by aggregating individual sheets signed by each of the inventors into two composite documents (each of which names a different inventive entity). Since counsel has not provided copies of the complete declaration documents signed by each inventor, it is not clear that each inventor had the benefit of signing a complete copy of the declaration document, naming the proper inventive entity. Therefore, it would not be appropriate to grant the requested relief at this time. Counsel is required to furnish a complete declaration, as signed by the inventors, nominating the complete and correct inventive entity. It is noted that one of the declaration documents filed on 21 July 2006 does list an inventive entity including the inventors nominated on the published international application, except for Keith and Exner, and also includes Kelly. However, said document is defective for the other reasons noted herein.

In responding to the Response to Notification of Defects, Applicant submitted two different form Declarations. Such action was done as a precautionary measure. Insofar as the error in inventorship was not identified until after the PCT 30 month date (and U.S. national phase filing), it is the understanding of the undersigned that correction in the international phase of prosecution is no longer possible. As such, Form IB 306 is not available for this case. With respect to the submitted declarations, the first form<sup>1</sup> included all the inventors identified in the PCT application. Please note, however, the first paragraph of this declaration, reads as follows:

This Declaration and Power of Attorney has been prepared and executed to include all inventors named during the PCT phase of prosecution. It has been determined that Kim KEITH and Greg EXNER should not have been inventors of the claimed subject matter of the PCT application. It has been further determined that Brian KELLY should properly be included as an inventor of the PCT application. Subject to these noted changes of inventorship which will be addressed in Statements of Corrected Inventorship Under 37 CFR §1.48 to be submitted contemporaneously herewith, I hereby declare that:

---

<sup>1</sup> This version of the Declaration was a five-page document.

**PATENT**

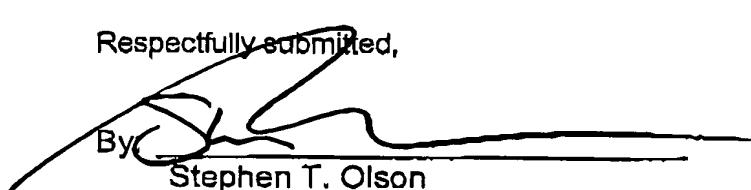

The intent was to submit a declaration signed by all the inventors mentioned on the published international application for purposes of satisfying Patent Office requirements.

The second form<sup>2</sup> of the declaration was signed by each inventor. Each inventor had the benefit of signing a complete copy of the declaration (4 pages) naming the proper inventive entity. See Declaration of Stephen T. Olson, ¶2. Applicants are submitting herewith complete copies of Declarations naming the proper inventive entity executed by the inventors. A first copy bears the signatures of George GRECH, Michael HARRIS, Jason SMITH, Steve MEYER and Brian KELLY. A second copy bears the signature of Michael FRITZ. A third copy bears the signature of Eric KRUPP. A fourth copy bears the signature of Craig KARAGITZ.

Applicant believes that all the deficiencies noted in the Decision have been corrected. To any extent necessary, Applicant petitions the Commissioner under 37 CFR 1.183 to suspend or waive the technical requirements of the appropriate regulations. The Commissioner is authorized to charge any fees incurred for such a petition to Deposit Account No. 080750 for the undersigned.

Prompt and favorable consideration of this Renewed Submission is respectfully requested. If the Examiner has any questions or concerns or believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641.1267.

Respectfully submitted,
